ABOUT ME

Motivated and detail-oriented Computer Science student with a strong foundation in programming languages such as Python, Java, and C. Skilled in problem-solving and logical thinking, with hands-on experience in building mini-projects. Eager to contribute to real-world projects and continuously improve technical and analytical abilities.

EDUCATION

R.C. Patel Institute of Technology, Shirpur

Bachelor of Technology in Computer Science

2025 – Present - 1st Year: Artificial Intelligence & Data Science - Switched to Computer Science in 2nd Year

SKILLS

- Python
- Java
- C Programming
- Problem Solving

PROJECTS

Random Password Generator

Generates strong and unpredictable passwords by combining uppercase, lowercase, numbers, and special characters. Provides user-defined options for password length and complexity.

Number Guessing Game

A console-based game where the system randomly selects a number, and the user guesses it with feedback. Reinforced logic-building, loops, and user interaction in Python.

Stone Paper Scissors Game (Python)

A CLI game simulating the classic 'stone-paper-scissors' against the computer. Practiced conditional statements, random number generation, and user input handling.

Grade Tracker App (Python)

A terminal-based tool to input and calculate student grades, display results, and identify performance trends. Strengthened logic and data handling with lists and functions.

Flashcard Quiz: General Knowledge (Python)

A flashcard-style quiz game covering GK questions. Helped build memory-based learning using Python dictionaries, loops, and clean input/output design.
